Personal Profile

Computing graduate looking to apply the practical and interpersonal skills I have learnt at University in a position in software, web and mobile development. I am seeking to work alongside a collaborative team to tackle new challenges and deliver impactful solutions.

Key Skills

- Proficient in numerous programming languages such as JavaScript, PHP, React, TypeScript, Java, Python, ReactNative and SQL with experience in working with AWS, REST APIs & Git-based source control
- Strong problem-solving abilities with knowledge in algorithmic thinking and debugging
- Understanding of foundational development concepts to quickly learn and adapt to new challenges
- Passionate about learning new technologies and self driven to expand my skillset
- Confident presenter having showcased work at hackathons and commentated for live Esports events
- Strong team communication skills developed during hackathons, fostering collaboration and a positive team environment

Education & Qualifications

University of Suffolk | September 2022 - June 2025

BSc (Hons) Computing (Web and Mobile Development) - First

- Produced a web-based Esports Broadcast Tool (dissertation project)
- Winner of Winter Hackathon 2025 resulting in work experience with IJYI
- Participated in Codes against Cancer 2024

Colchester Institute | September 2020 - June 2022

Computing Level 3 BTEC - D*D*D*

Philip Morant School & College | September 2015 - June 2020

9 GCSE's, Grade 9-6, including Maths, Sciences, English & Computer Science

Work Experience

Developer Work Experience at IJYI | Spring 2025

- Completed a 5-day placement at IJYI, a software development firm in Ipswich
- Collaborated in a small team to add functionality and enhance an existing web application
- Incorporated developer feedback to iteratively improve code quality and functionality

Freelance Esports Talent | October 2024 - Present

- Delivered in-person and online broadcasts for both self-hosted and external events
- Collaborated with production teams to produce informative and engaging live broadcasts
- Adapted to a rapidly changing environment, learning new techniques and gameplay trends

Trading Assistant, Argos, Stanway | May 2023 - Present

- Made responsible colleague in October 2023, requiring me to supervise the store and other colleagues for periods of time
- Delivered positive customer experiences developing my communication skills and applying my knowledge to help inform customer purchase decisions
- Maintained organization and efficiency in a fast-moving stockroom environment
